## About INCAPP

INCAPP Coding Institute, established in 2011, was founded with the goal of addressing the global tech skills shortage. Our commitment lies in offering high-quality training programs to students, professionals, and organizations. We strive to empower individuals with coding skills, facilitating personal and professional growth, and assisting organizations in enhancing their workforce's productivity and effectiveness.

Our company boasts a team of seasoned instructors, experts in their fields. We employ the latest teaching methodologies and technologies to provide engaging and interactive training programs.

“

We foster innovation and empower aspiring coders. As founders, we are excited to welcome you aboard. Whether you're new to coding or already experienced, our hands-on curriculum and expert instructors will guide you. Coding is more than just writing lines; it involves creativity and problem-solving. Embrace challenges and celebrate your successes, knowing that coding is a journey of continuous growth. Let's get started!

## How We Help You To Learn

1

### Expert Instructors

Top-class instructors, experts in their fields, teach through practical training.

2

### Assignments

Understand all concepts through well-structured assignments.

3

### Doubt Resolutions

Dedicated assistance provided to clarify doubts, featuring two types of instructors: Class Instructor and Lab Instructor.

4

### Projects

Gain a comprehensive understanding of the technology through project work, guided by your instructor.

# Why INCAPP Coding Institute

Outstanding students deserve the finest learning environment.  
At INCAPP, we guarantee a superior learning experience and  
personalized support to ensure your success.

Top-Notch

## What You Will Learn

**PROJECT WORK**

**100+ ASSIGNMENTS**

## 5 Reasons To Learn C++

**Performance Efficiency:** C++ is known for its high performance and speed.

**System Level Programming:** Ideal for system software and game programming.

**Control Over Resources:** Offers fine control over system resources and memory management.

**Widely Used in Industry:** Essential for many tech sectors, including finance and gaming.

**Foundation for Understanding Programming:** Learning C++ provides a strong base in computer science concepts.

## Course Overview:

C++ is a general purpose programming language that is an extension of C language. It shares some of the syntax and structure elements with its predecessor and a couple of its own elements of object oriented programming. It is considered one of the best languages for system softwares and game applications.

### C++ Language

#### Introduction to Programming languages

- Introduction to Programming Language
- Need of Programming Language
- History and Origin of C++
- C Vs C++
- Creating first C++ program
- Compiling and executing first C++ program

#### Assignments

#### An Overview of Programming Basics

- Data Types
- Variable
- Constant
- Keywords
- Identifiers
- Tokens
- Operators

#### Assignments

#### Decision Making Statements

- if statement
- if else statement
- else if statement
- nested if else
- switch statement

#### Assignments

#### Loop Controls

- for loop
- while loop
- do-while loop
- break keyword
- continue keyword
- nested loop

#### Assignments

#### Functions

- Understanding function basics
- Types of functions
- Local and global variables
- Scope Resolution Order
- Function with default argument
- Inline function

- Recursion and recursive function
- Creating own header files

### Assignments

#### Array

- What is Array
- Operations on Array
- Types of Array
- One-Dimensional Array
- Multi-Dimensional Array
- Array with function

### Assignments

#### OOP Concepts

- Understanding Object Oriented Programming (OOP)
- Who created OOP's Concepts and Why?
- Learn all OOP's Concepts in real world
- Defining your own class
- Creating object of a class

### Assignments

#### Encapsulation

- Understanding Encapsulation in Class
- Public and private access specifiers

### Assignments

#### Static Keyword

- Need of static member
- Static Vs Instance members

### Assignments

#### Constructor & Destructor

- Syntax of Constructor
- Need of Constructor
- Creating Constructor
- Types of Constructor
- Constructor Overloading
- Constructor Chaining
- This pointer
- Destructor

### Assignments

#### Inheritance

- Syntax of Inheritance
- Need of Inheritance
- Derived (child) and Base (parent) classes
- Working of constructor in Inheritance
- Constructor Chaining in Inheritance
- Types of Inheritance

### Assignments

#### Polymorphism

- Understanding Polymorphism

- Need of Polymorphism
- Compile-time and Run-time polymorphism
- Function overloading
- Unary operator overloading
- Binary operator overloading
- Virtual functions and Abstract Classes
- Friend function

#### Assignments

#### Console IO

- Console I/O and Understanding Stream Classes
- Single character and Single string I/O
- Command-line arguments

#### File IO

- File I/O and File streams
- Opening, closing a file and Reading, writing a file
- Error handling during file operations

#### Assignments

#### String Handling

- The string class and its members
- Creating string
- Strings manipulations

- Comparing strings
- Accessing characters in strings

#### Assignments

#### Exceptional Handling

- Exception and Exception handling
- The try-catch block
- Multiple catch statements
- Re-throwing an exception
- Specifying exceptions

#### Assignments

#### Templates

- Understanding templates
- Function templates
- Templates functions overloading
- Class template

## What our students say about us

“

I had learned core java, web development, advance java from the Rahul sir and i am very grateful to him for giving us the best knowledge.

”

Isha

“

I did web designing course by Incapp and this is the best institute in G.Noida. It has really helped me understand and feel more confident in what I am doing. Thanks Rahul sir.

”

Vishal Kumar

“

The class is well maintained and i like what mam teaches us. We have learned programming language. Thankyou INCAPP for best coding experience.

”

Pratyush Mishra

“

The environment of coaching is very good. Notes, PDFs, & books everything is provided. Notes are really very nice. Overall, coaching is very good.

”

Khushi Mundra

“

Incapp is a best institute for coding, here staff is very supportive and our Praveen Chauhan Sir explain every topic very well.

”

Anand Kumar

“

I had a fantastic learning experience at Incapp! The instructors were highly knowledgeable and skilled in their respective fields. I would highly recommend Incapp to others.

”

Kartik Chauhan

## Our Students Are Place In

Everyone should learn how to program a computer, because it teaches you how to think.

- Steve Jobs

All of my friends who have younger siblings who are going to college or high school - my number one piece of advice is: You should learn how to program.

- Mark Zuckerberg

## FAQ's

### What are the criteria for admission?

No criteria, anybody who has an interest in coding can join.

### Do you Provide Study material?

Yes, Immerse yourself in a superior learning experience with study materials meticulously crafted by our expert instructors.

### Do I need to be good at maths to complete this program?

No, Only your dedication and ambition about learning is needed.

### Do I get a certificate after course completion?

Yes. Upon successful completion of the course, you will be awarded a prestigious certificate that validates your achievement.

### Is coding difficult?

No, it is not difficult. Coding is fun and challenging as you learn to create apps, games, websites, and lots more out of your creativity.

### Are there tests/exams in the program?

Yes, In between the course, your instructor conducts the test to monitor your performance.

## Courses we offer

**Java  
Language**

**Oracle Certified  
Foundation  
Associate**

**Data Structure  
& Algorithms**

**Spring Boot  
Framework**

**Website  
Development**

**Python  
Language**

**Data Science**

**Django  
Framework**

**C Language**

**C++  
Language**

**Coding  
Foundation  
Program**

**Full-Stack  
Software  
Development**

**React JS**

**Node JS**

**MERN**

## Are you ready to transform your career?

Our course may be demanding, but the incredible transformation you can experience will make it all worthwhile!
